Employees hired on or after January 1, 2014 shall become participants on the first day of the month coincident with or immediately following the completion of 24 months of Continuous Service if affected by Applicable Legislation of Ontario, Nova Scotia, British Columbia or Alberta; or the calendar year in which the employee has earnings of at least 35% of the YMPE or 700 hours of employment, if affected by Applicable Legislation of Quebec. A Participant acquires Vested Status on the date he/she becomes a Participant in the plan. If you retire at age 65 or later, after you acquired Vested Status, you will receive a monthly retirement pension equal to 1.65% of your average monthly pay during your five consecutive highest-paid years, multiplied by your years of service through December 31, 2020 up to a maximum of 25, plus 1.00% of your average monthly pay during your five consecutive highest-paid years, multiplied by your years of service after December 31, 2020 (in no event will such service be greater than 25 years less your pre-January 1, 2021 service).

If your employment terminates after age 55, you may receive an early Retirement Pension beginning at any time after your 55th birthday. If you had at least 10 years of Continuous Service, the amount of your Early Retirement pension will be reduced by $\frac{1}{4}$ of 1% for each month by which the Early Retirement Date precedes age 65. If you had less than 10 years of Continuous Service, the amount of your Early Retirement pension will be reduced by $\frac{1}{2}$ of 1% for each month by which the Early Retirement Date precedes age 65. If you acquire Vested Status and you leave employment prior to age 55, you have the option to transfer the commuted value of your deferred retirement pension to another pension plan or to a retirement savings arrangement.

The Company currently pays the full cost.

Profit Sharing Benefits

The Company does not maintain a formal Deferred Profit Sharing Plan (DPSP) in Canada but may make an annual profit sharing contribution, at its discretion, based on the financial performance of the Company.

Employees who are in active employment with the Company at the end of the year and as of the date the payment is made would be eligible to receive a cash contribution based on their participation in the benefit. Participation begins from the date of employment and is automatic. The Board of Directors of The Segal Group, Inc. declares a contribution percentage, if any, after the year-end financial performance is known. The contribution percentage the Board declares is applied to the base salary earned during the participation year for each eligible employee. The contribution is paid in cash, as wages, soon after the contribution percentage is declared, and is subject to applicable statutory deductions and withholdings.

You may retire as early as age
55 with 10 years of service.

Other Segal benefits
